

# QUARRY **PRO**

*Advanced dispatch & accounting technology  
in one efficient system.*

***Quarry Pro** is an accounting and dispatch software system, which has been specifically designed to improve customer service, reduce debtor days, decrease a dispatcher's workload, provide immediate management reports and capture detailed information for invoicing and accounting.*

As a Quarry owner, you are under constant pressure to improve your operation's performance:

- Pressure from customers to provide less expensive products and services
- Pressure from regulatory authorities to provide tighter product quality control and better reporting
- Pressure from your competitors
- Internal pressure to lower costs and improve profits

Infoscience understands your pressure and with Quarry Pro you have the advantage of using a single source for all of your batching, dispatching and accounting needs. We provide a dedicated service that will ensure that you get the most from your system.

## QUARRY **PRO**

### Here's what you get with Quarry Pro
